

TO-DO:
 *Finalize Pressure Sensor
 - Put together amplification for the load cell

*Power Management
 -What does each component need?
 -Do we need any level shifters/regulators?
 -How long do we want the battery to last?
 -Finalize our solar chargin decision.
 *Choose N-channel MOSFET

Group 7: Annika Boyd, Sal Esmaeil, Mitch Montee, Nate Sjullie, Nitin Suryadevara
